Summary

Web Developer and **Full Stack Engineer** skilled in designing, coding, and deploying responsive web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)** with strong attention to accuracy and precision. Proficient in **front-end and back-end development**, **RESTful API design**, **database management**, and **version control (Git/GitHub)**. Experienced with **authentication systems (JWT)** and **cloud deployment platforms**.

Education

Muthayammal Engineering College **2023 – 2027**
Bachelor of Engineering in Computer Science and Engineering (Cyber Security) — CGPA: 8.44 *Namakkal, India*

Government Higher Secondary School, Thandavarayapuram **2022 – 2023**
HSC – Maths/Biology — 87% *Attur, India*

Experience

Fund Management System (Internship Project) **May 2025 – Jun 2025**
Web Developer Intern *Muthayammal Engineering College*

- Developed a full-stack **fund tracking web application** for college management using React.js, Node.js, Express.js, and MongoDB.
- Implemented RESTful APIs, authentication (JWT), and three-tier role-based access for management, HOD, and coordinator dashboards.
- Optimized data flow between frontend and backend, improving transaction processing efficiency by 35%.
- Applied Git version control for iterative feature delivery and collaboration.

Projects

Canteen Preorder App – Smart College Food Booking | *MERN Stack, JWT, Chart.js* **Mar 2025 – Jun 2025**

- Engineered a real-time food preorder platform using React.js, Node.js, Express.js, and MongoDB to handle concurrent orders efficiently.
- Integrated secure **JWT-based authentication**, interactive admin dashboards, and analytics visualization using Chart.js.
- Designed REST APIs to manage user sessions, menu data, and payment logic for optimized performance.
- **Repo:** github.com/Cyberpradeep/canteen-preorder-app

Personal Portfolio Website | *ReactJS, CSS3, Vercel, Responsive Design* **Jun 2025 – Jul 2025**

- Built a responsive single-page portfolio to showcase web projects, integrating reusable React components and modular CSS.
- Deployed on **Vercel** for global content delivery and integrated SEO tags for better discoverability.
- **Live:** portfolio-omega-six-66.vercel.app **Repo:** github.com/Cyberpradeep/portfolio

Technical Skills

Programming Languages: Java, JavaScript, HTML5, CSS3, C
Web & Database Technologies: ReactJS, Node.js, Express.js, MongoDB, Firebase, REST APIs
Developer Tools: Git, GitHub, Postman, VS Code, Chrome DevTools, Jupyter Notebook
Methodologies & Concepts: API Integration, MVC Architecture, Debugging, Responsive Web Design

Achievements & Leadership

Finalist at **MSME Ideathon 5.0** for building an AI-driven virtual assistant using JavaScript and Node.js.

Led 5-member team in **Smart India Hackathon 2024**, developing a blockchain-based automation model.

Solved over **200+ Data Structures and Algorithms problems** on LeetCode using Java.

Certifications

Microsoft Azure AI Fundamentals (AI-900) — Verified by Microsoft — Credential

GitHub Foundations (GH-900) — Verified by GitHub — Credential

Cisco Networking Fundamentals — Verified by Cisco Networking Academy

Distributed Systems (NPTEL) — Verified by Ministry of Education, India
